Overview of Verallia's design contests

The season of Verallia's design contests ends on a very good note. This year, 4 countries (Brazil, France, Portugal and Spain) participated in the adventure originally initiated by France. Based on the theme of new market trends, Verallia Portugal's contest – sponsored by designer Francisco Providência – received a warm welcome for this first edition: 50 projects submitted from 4 big design schools. All the results [here](#).

Verallia España in turn received 35 projects from 62 students in 4 schools. Chaired by designer Nacho Lavernia, the jury awarded 4 innovative projects.

Verallia Brasil's contest ended with a trip to France for the student who won among 35 submitted projects.

Focused on vintage as a theme and with the participation of designer Ionna Vautrin, Verallia France ended the fifth edition of its design contest on June 27. Another great participation record this year: nearly 200 projects submitted, nearly 300 students registered, 900 votes for Facebook's general public Award and 7 projects awarded.
